Time

**Saves  
Money**

Fully  
Cloud-based

Powerful  
Reporting

**24/7  
Support**

**TIMIHIRT BETE** is simple to use, easy to understand and makes a positive difference in schools every single day.

It has a big impact on how you manage and manipulate data, and much less of an impact on your bank balance when compared with other competing solutions. Put simply, Smart School does exactly what you want it to do, with greater positive benefits in school, yet for far less investment.

➤ TIMIHIRT **BETE** is a comprehensive Campus Management System for all educational institutions. TIMIHIRT **BETE** is a powerful online community that brings an educational institution's management, parents, teachers and students on one common interactive platform.

➤ The system is a cloud based solution along with mobile platform, providing a completely automated experience with all backend administration and data management activities of the institution.

# What IS TIMIHIRT BETE ?

# WHY GO SMART?

Makes better and faster decisions

## Shaping the future of your institution

**TIMIHIRT BETE** is one of the world's most comprehensive ERP solution ever designed for managing schools and any educational institution. With its fully integrated mobile application Smart has become a leader in the available choices in School Management Software. Smart flexibility and ease of access enables your institution to choose, customize and deploy the modules based on your unique requirements.

With Smart integrated platform and advanced set of modules, teaching, learning, information sharing, administration and data management becomes more efficient and easy to manage.

Hence, Smart augments the institution's brand image and reputation with increased efficiency, productivity and profitability.

### EASY TO USE INTERFACE

Smart interface design making the user's interaction as simple and efficient as possible.

### FULL SUPPORT & TRAINING

Around the clock online training support with quick resolution and in-depth assistance.

### SECURED BACKUP

A solid, secure backup and recovery strategy with secure storage for data assets & restoration processes.
